SUMMARY

Software engineer with full-stack development experience and applied machine learning research. Skilled in Python, Django, ASP.NET, building backend systems, automation pipelines, and database-driven applications across B2B platforms.

WORK EXPERIENCE

Paronsoft Solutions Ltd, Software Engineer 03/2024 – Present | Chattogram, Bangladesh

- Built a custom template generation system used by 800+ client companies to create and manage their own document templates with drag-and-drop controls
- Implemented QR-code-based PDF sharing, simplifying document distribution for 800+ client companies
- Applied pagination across high-traffic modules to prevent performance degradation on production datasets

Tech Stack: ASP.NET, SQL, SQL Server, jQuery, AJAX, HTML/CSS, JavaScript

Genuine Technology & Research Ltd, Junior Programmer 07/2023 – 02/2024 | Chattogram, Bangladesh

- Pioneered Hangfire-based job scheduling to automate daily data imports from third-party vendors, eliminating manual data entry
- Developed 30+ ASP.NET [APIs](#) to fetch fundamental company data from third-party vendors into the company database
- Developed SQL stored procedures to transform and calculate trading data for 800+ tickers, feeding real-time screener tables
- Implemented a Dockerized Python scraper to collect daily Fear & Greed Index data, integrated with Hangfire and engineered report visualization in Flask.

Tech Stack: Python, ASP.NET, SQL Server, Flask, Docker, Hangfire, HTML/CSS/JavaScript

Genuine Technology & Research Ltd, Intern 04/2023 – 06/2023 | Chattogram, Bangladesh

- Automated 3 repetitive manual workflows using Python, improving operational efficiency

EDUCATION

Post Graduate Diploma in Business IT, Bangladesh University of Engineering(BUET) 05/2026 – Present | Dhaka, Bangladesh

B.Sc. in Computer Science & Engineering, Chittagong Independent University(CIU) 2022
B.Sc. in Computer Science & Engineering Chittagong Independent University

CGPA: 3.57/4.00

Higher Secondary Certificate, Chittagong University Laboratory School & College 2016 | HSC
GPA: 4.08/5.00

Secondary School Certificate, Chittagong University Laboratory School & College 2014 | SSC
GPA: 5.00/5.00

SKILLS

Programming Languages

Python, C, C#, JavaScript, Java, SQL

Tools & Systems

Linux, Git, GitHub, Docker, PostgreSQL, SQLite, MongoDB

Machine Learning & Data

Analysis

Scikit-learn, Pandas, NumPy, Matplotlib, Feature Engineering, Model Evaluation

Bioinformatics

Biopython, Genomic Data Analysis, Sequence Processing

Web & Backend Development

ASP.NET, Django, REST APIs, HTML5, CSS3, Bootstrap, JQuery, Ajax, JSON

PROJECTS

POS, Ongoing

Building backend and database layer for a team project using ASP.NET [APIs](#) and Angular.js, supporting core business modules including sales, inventory, and ledger for small local businesses as an affordable POS solution.

21st Century Auto Parts, Business Website

Designed and deployed a full Django e-commerce site for a car garage, integrating product search, admin dashboard, Google Maps, and WhatsApp; live at twentyfirstcenturyautorepairs.com [API](#)

Padma, Personal finance and task manager

Independently designed and shipped a full-stack personal finance app using Flask and MongoDB from scratch, covering expense tracking, task management, and wishlist; hosted on Render.

RESEARCH

Machine Learning-Driven Genetic Disorder Detection Using Whole Genome Sequencing of Domestic Cats 2025 – Present

Developing an ML-based framework to detect genetic disorders from whole genome sequences; poster presented at the 17th International Scientific Conference, CVASU.

Bangla WSD – Bangla Word Sense Disambiguation, Senior Project, BSc 2022

Built a novel Bangla WSD dataset from scratch, scarce for the language at the time, preprocessed and applied multiple classifiers with hyperparameter tuning to identify the best-performing model.

CERTIFICATIONS

Introduction to Career Skills in Data Analytics, LinkedIn

ACHIEVEMENTS

ICPC Regional Final	2019
---------------------	------

TEACHING / TRAINING EXPERIENCE

Python for Bioinformatics Beginners , <i>Instructor, Inquest</i>	03/2026 Chattogram, Bangladesh
Delivered a one-day training for 12 participants including medical professionals and postgraduate biology students, covering Python fundamentals, NumPy, Pandas, Matplotlib, and bioinformatics workflows using Biopython.	
Introduction to Linux Commands and Shell Scripting , <i>Instructor, Inquest</i>	02/2026 Chattogram, Bangladesh
Delivered a one-day hands-on training for 10 participants including biology researchers and postgraduate students, covering core Linux commands and foundational shell scripting.	

LANGUAGES

Bangla	English
Native	IELTS Band 7.0 (Listening: 8.0, Reading: 6.5, Writing: 6.5, Speaking: 7.0)

EXTRACURRICULAR ACTIVITIES

CIU Programming Club , <i>President</i>	2022
- Tutored 15+ juniors in competitive programming - Organised 3 programming contests and created problems for competitive programming contests	
Independent Science & Engineering Club , <i>Vice President</i>	2022
Coordinated 2 major events, such as Engineering Night, with 500+ attendees	
IEEE Student Branch CIU , <i>Secretary</i>	2019
Managed communications for a student branch of 30+ members and supported the branch launch at CIU
